

# Feature Documentation & Index

*Use this template to document an upcoming product feature and any product support information your team will need.*

[Learn more](#) about this template.

---

## Upcoming product launch—What is it?

Give a description of the feature that's going live.

## How does it work?

How would you explain this feature to someone who has never seen your product before?

## Benefits & Value

How does this help your customer solve a problem?

## Feature Attributes

- List specific feature attributes here (e.g., what has changed, how the change may impact other features, etc.)

## Specs

- Include more detailed feature specifications here, and/or link out to a separate card with detailed specifications

## Pricing

This feature will cost \$X, and here's the reasoning behind the price.
